

Instant classic

TAUPO

This Brentwood stunner is an elegant example of how to successfully combine classic lines with contemporary living. Details such as weatherboards and timber floors reference the much-loved New Zealand villa, yet, being new there's also everything you need for warmth and comfort.

Superb oak floorboards deliver you to the light-filled kitchen, which showcases more carefully crafted timber details. Further inside, you'll find four bedrooms, three tiled bathrooms, laidback living areas and a study. The open-plan interior flows effortlessly to a sunny courtyard that's set up for summer entertaining.

This new home may reference classic design features but it's the modern comforts, such as under-tile heating, a gas fire and heat pumps, that make it homely.

"Generous outdoor spaces flow seamlessly from sunlit interiors, making this a home to truly bask in."

The finer details

- Beautifully crafted timber shelving allows for the easy display of treasures to create a unique interior.
- The warmth of the floors perfectly complements crisp white walls.
